“We are pleased to report another record quarter, with revenue more than doubling from the same period a year ago. As demand to digitize the built world continues to rise, our subscriber base has increased exponentially, bolstered by big advances across our iPhone, Android, and Enterprise platform and service offerings,” said RJ Pittman, Chief Executive Officer of Matterport. “This quarter once again reflects our enduring, strong execution – across product innovation, expanding service offerings, extended global reach, and most importantly, adding to our world-class talent base. We have also made excellent progress on our proposed merger with Gores Holdings VI, and the closing is on track for early in the third quarter. This transaction enables Matterport to more aggressively achieve significant global scale as a public company. Matterport has been digitizing the built world for a decade and we are very well positioned to capitalize on this enormous opportunity in front of us,” Pittman added.

“Our Q1 financial results show continued positive momentum in our business, as we delivered records in total revenue, subscription revenue and annual recurring revenue,” said JD Fay, CFO of Matterport. “Not only are we rapidly adding new subscribers, our existing subscribers are also increasing their spend with us and seeing more value as they expand the use of our products. Further, we believe our innovation in digitizing the built world will continue to support strong future growth.”
